## CUSTOMIZATION GUIDE

---

### CHANGE COLORS (Light Theme):

You see the color code, you just need to replace it with your favorite one if needed.  
Open style.css and find lines 25-61:

```
:root.light-theme {  
  --accent: #2563eb;    ← Change this color  
  --accent-strong: #1e40af;  
  --bg-sidebar: #f2f3f7;  
  --bg-surface: #ffffff;  
}
```

---

### CHANGE COLORS (Dark Theme):

Open style.css and find lines 67-112:

```
:root.dark-theme {  
  --accent: #2196f3;    ← Change this color  
  --accent-strong: #1c509d;  
  --bg-sidebar: #444444;  
  --bg-surface: #333333;  
}
```

---

### CHANGE LOGO:

Open index.html and find line 23:

Paste your logo image link.

`` ← Replace with your logo

---

### CHANGE ADMIN IMAGE

Since I can't provide you my personal image which is seen in this template

You just need to paste admin image src in line 228 of index.html

```

```

## PRODUCT RECEIVER IMAGE

You can change the product receiver image by paste receiver image src or url in line 239,248,257 and 267 of index.html file

## CHANGE CHART DATA:

Open script.js and find line 77:

These are the percentage of selling product per month

data: [30, 60, 50, 90, 30, 50, 90, 49, 77, 66, 36, 90]

↑ Replace with your data

---

## ADD MENU ITEM:

Open index.html and find the sidebar(line 33) :

```
<li><a href="#"><span class="material-symbols-sharp">icon_name</span>
  <h3>Your nav page</h3>
</a></li>
```

Copy and paste this block, then change:

- icon\_name (use any Material Icon name)
- Your Page (your menu item name)
